

## **MASK INSTRUCTIONS**

1. Colour in the Bella face and cut it out.
2. Fold a piece of A4 paper in half long ways and cut down this line, fold these two pieces again long ways, staple the ends of these together so you have one long strip.
3. Now take this long strip and wrap it around the forehead of the mask wearer, hold the ends together in a circle shape around their head then remove it and staple the ends together.
4. With the paper headband on, figure out where you'd like the character's face to sit, then remove it from the head and staple the face mask in place onto the headband.
5. With the mask on, draw dots on the eyes so they line up with the wearer's eyes, then remove the mask and poke holes through these dots for seeing through.
